<u>Le Stroppigliose</u>

BROCHURE 2022

We are...

LAND, that we cultivate with respect following the good teaching that she preserve.

NATURE, real inexahustible resource for us, that scan our days and with them our work since three generations.

SUN, that ripes slowly the grapes and naturally feeds with energy our farm.

OUR WINES, that reap, in whites, all of the mineral and the freshness due to the climate and, in reds, the elegance recalled by the depth of the ground.
